

Overview

All good projects need to start out with a proper foundation and BAPI's ETA modules are no exception. The TRK - Snaptrack provides a sturdy, secure and easy mounting method for many products in the ETA line. The standard 2.75" snaptrack is available in several convenient lengths to accommodate all ETA products and enclosures.

The snaptrack firmly holds the ETA interface and communications backplanes, terminal blocks and other products in place so you can build neat, accurate and cost effective control panels. The plastic track is easy to cut in the field to fit any application.

TRK - 2.75" Snaptrack

Part Number	Description
BA/TRK01	TR2 Snaptrack, 1.25" length
BA/TRK02	TR2 Snaptrack, 2" length
